

ANCESTORS

CUSTOMISED COLLECTIONS

The Ancestors® Group was established in 1992 and since then the business has developed a solid background and track record in research, design and manufacture for the heritage and corporate market places. The company has become uniquely placed to service these industries through its extensive knowledge and manufacturing capabilities, particularly through its Customised Collections range of products.

Ancestors® can provide you with a full design service, from the conception of an idea to finished product, or realise your vision simply from a picture or drawing. Alternatively, we are just as happy to place your logo on to any one of the many Ancestors® gift items available.

We are in full control of the design, manufacture and assembly of our own products and have the capability and ability to customise any item within our range at very little additional expense.

In fact, for the majority of items we do not charge any additional origination fees allowing you access to high quality customised products that really do represent value for money.

For example, if you choose any three items or more produced using the same design or picture supplied by you, then there will be no origination charge. If you increase the range to five items with the same picture or image we will give you a 5% discount!

If you would like to know more about Ancestors Customised Products we would be happy to visit you, or to discuss your needs by telephone or e-mail. Better still come to see us at our factory where we can really demonstrate what we could produce for you.

ANCESTORS

HAND MADE BY ANCESTORS

Ancestors® have been casting in lead free English Fine Pewter for the past nine years and have the facility to produce over 15,000 pieces a day. New machinery has enabled the company to print, cut and dome designs for insertion in many products like keyfobs and pill boxes. Acquiring new Pad Printing and plate making machines allows us to print onto almost any medium and any shape even onto a shot glass.

Ancestors® have the facility on site to be able to produce a variety of customised products including:

- Gold/Silver Blocking - used on pencils and specialist packaging.
- Pad Printing - any shape any colour on quills, glass, wood, plastic, or material.
- Heat Transfer - printing on mugs (dish washer safe), t-shirts, caps etc.
- Enamelling and gem setting - jewellery, Christmas decorations.
- Soldering - using lead free solder.
- Casting - in lead free pewter.
- Picture Framing - very competitively priced in any size using popular frame designs.
- Crystal Lens - an amazing liquid encapsulation that creates a domed magnification of the image whilst protecting it for a much longer life.

Whilst Ancestors® produce the merchandise in-house, this can not be completed without the dedicated help of the many outworkers who ensure that the work is completed to a high standard.

Our products really are hand made and the majority, including the component parts are British made. This allows us to produce high or low volumes without waiting for goods to arrive from the Far East.

Come and visit us and try your hand at casting,
or one of our other manufacturing techniques -
you can even take the finished product home with you!

ANCESTORS

Our "Crystal Lens" manufacturing capability provides a unique quality and feel to many of our products. For instance, the keyrings are no ordinary keyrings - hold and touch them - dig your nails into the clear doming section and the marks all just bounce back without a trace - a quality keyring at a great price with a striking high image quality due to the magnification of the lens.

Ever thought of having your own range of phone charms - now you can.

ANCESTORS

CUSTOMISED JEWELLERY

Ancestors® have been making jewellery with a historical relevance for many years with some of our product ranges being produced under license with Historical Royal Palaces and more recently, The Victoria and Albert Museum.

Ancestors® are able to design and manufacture customised jewellery as replica pieces, or we can develop specific designs inspired from pieces from an original collection. This can then be supplied according to your requirements in small or large volumes as costume or fine jewellery.

CUSTOMISED PACKAGING

Choose any product from our Timeline range and we can now customise the packaging for you.

Our latest piece of printing equipment allows us to hold limited stocks of printed material, this means that you are not committed to ordering large quantities whilst allowing us to produce short runs customised with either your own design or logo onto our standard range of Timeline packaging.
