VERMEER & THE DUTCH MASTERS
Masterworks

D. A. Morrison & Flame Tree Studio

Today we marvel at the shimmering light, the detail and hidden significances within the subtle techniques of Vermeer, Rembrandt, Van Eyck, Frans Hals and their compatriots. The luminescent art of the Dutch Masters grew from the bounding confidence of the newly independent Netherlands in the early 1600s. Shed of religious conflict it encouraged a wealthy mercantile class that sought the oceans of the world in search of riches and influence, and a new sensibility in art that cast light across the actions and objects of daily life.

The Dutch Masters are characterized by the abandonment of religious patronage, allowing, for the first time, a relentless focus on everyday subjects: the taverns, breakfast tables and living rooms of the newly wealthy and the places they loved to visit.

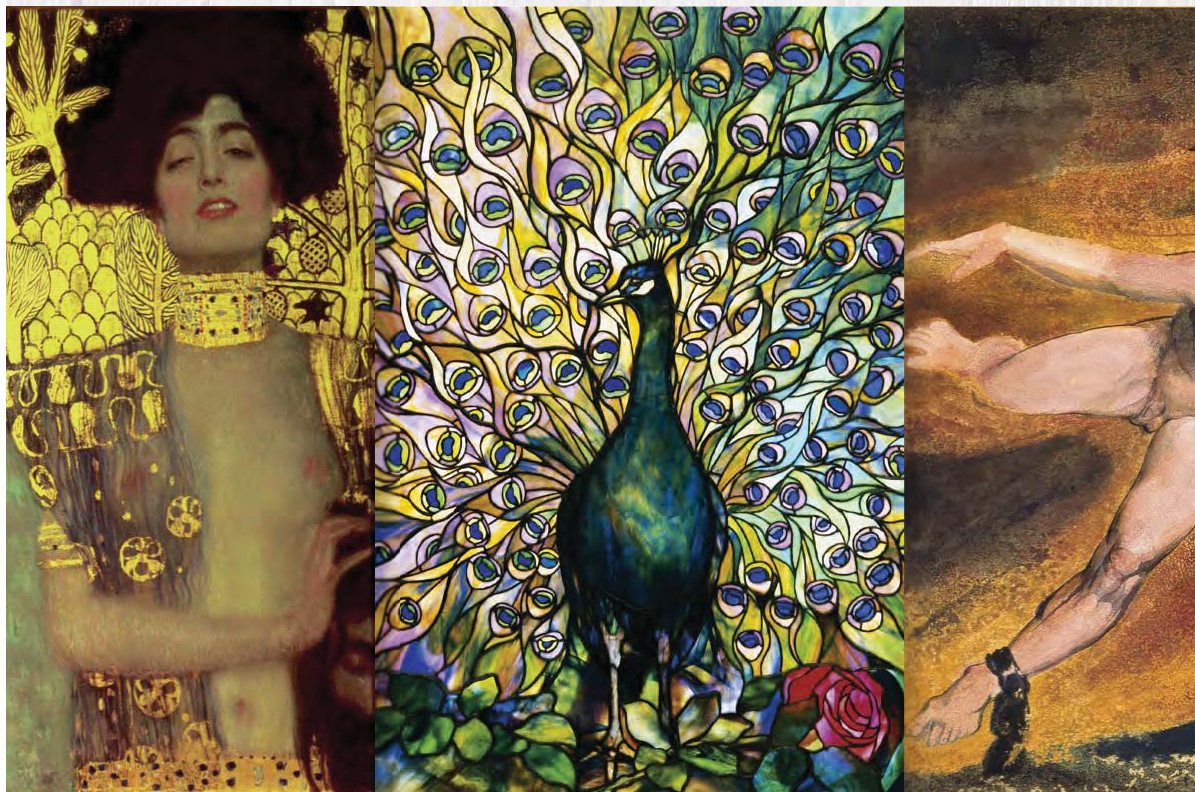

This wonderful new book, also highlighting the work of the pioneering Rachel Ruysch, is the latest addition to Flame Tree's highly successful Masterworks series.

ART NOUVEAU
Masterpieces of Art

Julian Beecroft

Founded in the 1880s as a response to the art world's elitist obsession with painted and sculptural arts, 'New Art' quickly found enthusiastic support. Art Nouveau combined a desire for the complete reflection of art through craft and design, with the flowing lines of nature and Japonisme. It remains hugely popular, with the ever-present work of Mucha, Klimt, Toulouse-Lautrec and Mackintosh.

ART DECO
Masterpieces of Art

Flame Tree Studio

Focusing on Art Deco graphic art and illustration, this gorgeous new book features fascinating text on the movement in general, fashion and advertising, accompanied by beautiful reproductions of work by talents such as Barbier, Erté, Cassandre and Colin. Sympathetic examples of other forms of Art Deco are also included.

WILLIAM BLAKE
Masterpieces of Art

Flame Tree Studio

Rich and delicate, ethereal and muscular, the art of William Blake is as fascinating as the philosophies threading through his poetry and prophetic works. His vivid paintings and gently weaving illustrations are imprinted in the consciousness of Romantic art but their impact on Gothic literature remains as strong and quixotic as the artist himself, and presented here in this magnificent new collection.

THE ASTOUNDING ILLUSTRATED HISTORY OF FANTASY & HORROR
 Movies | TV & streaming | Art Comics | Pulp Magazines | Fiction
 Flame Tree Studio

Companion title to *The Astounding Illustrated History of Science Fiction* this new book reflects the same roots in Gothic literature but follows a complementary path through the 20th century, to the movies of Peter Jackson, the success of streaming TV series such as *Grimm*, and the fantasy of Neil Gaiman's *American Gods*. From the wellspring of *Frankenstein*, Germanic fairy tales, and heroic, epic myths a dark and fantastic path can be found to the fragmentation of the 1930s: the schlock horror of early modern movies, the invention of High Fantasy by Tolkien and fellow Inking C.S. Lewis, and the pulp magazine powerhouse *Weird Tales* with Robert E. Howard's sword and sorcery archetype Conan.

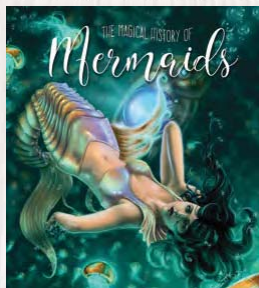

A brilliant concoction of movie posters, stills, book covers, fantastic art and incredible timelines.

CONSPIRACY THEORIES

Mystery & Secrecy

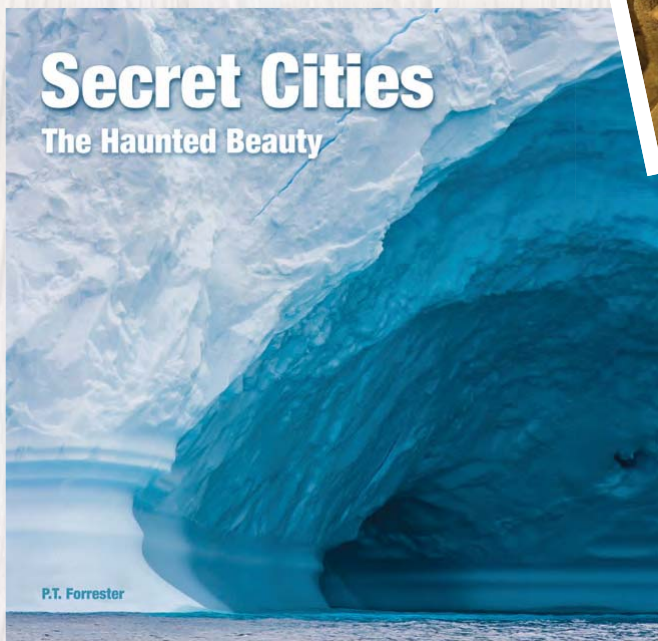

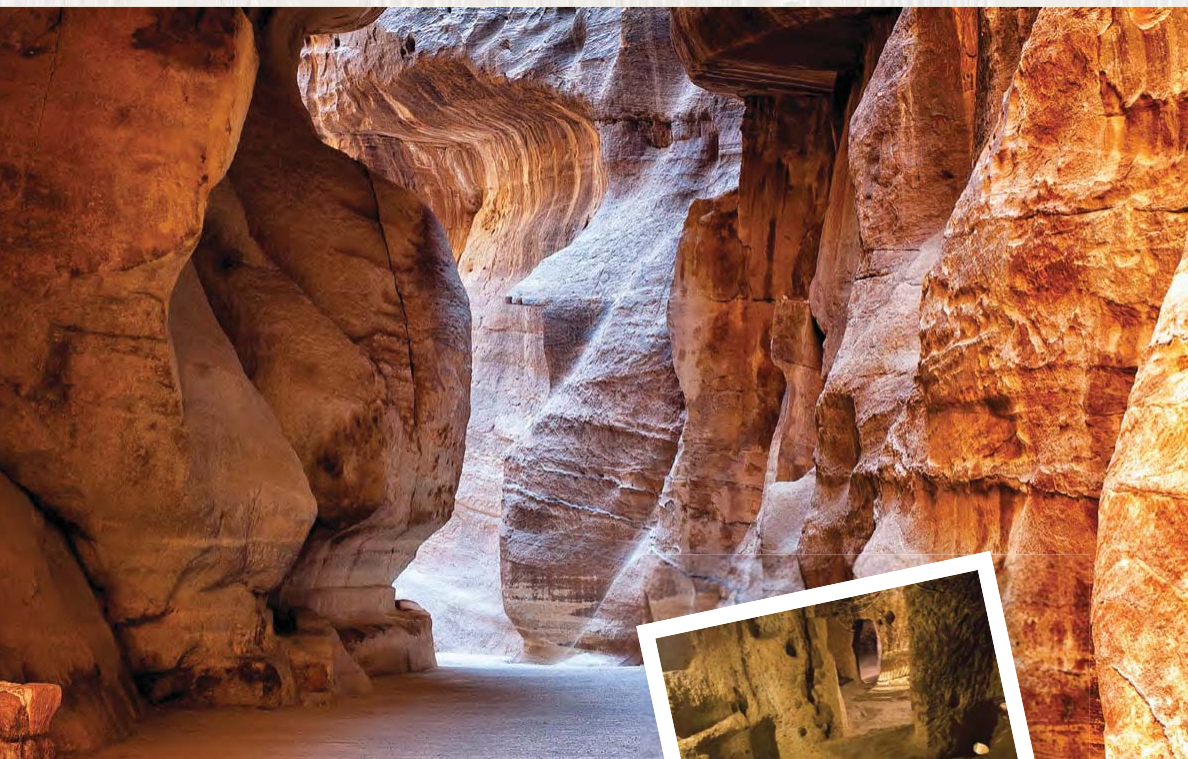

Michael James

Cover-ups and mysteries, are they just a mix of wishful thinking and fantasy that grips the attention of millions of people: was JFK assassinated? Were the moon landings faked? Do secret societies such as the *Illuminati* control the world? Did Shakespeare write *all* of those incredible plays? Is global warming a hoax? Why did the all-powerful Mayans decline so rapidly? Is Area 51 really the site of an alien landing? All these and more are explored in this fascinating new book, a visual feast of mystery and imagination.

SECRET CITIES The Haunted Beauty

P.T. Forrester

The US military built a secret city under the ice sheet of Iceland, during the Cold War; in the Scotland of the 1800s Burke and Hare lurked in the Edinburgh Vaults; in Turkey the subterranean tunnels of Cappadocia housed up to 20,000 people; the salt mine town of Wieliczka in Poland was built in the 13th century; and the ancient city of Petra, Jordan, was lost for centuries from the late 8th century. Packed with intriguing and haunting photographs this new book charts the many hidden sites of our world, from China, Russia and Poland to the mysterious underground dwellings in the cities of Canada and the USA.
