LEE VALLEY

I R E L A N D

Original Irish Clothing Since 1986

Lee valley Ireland is a family run business est. by Denis & Loretta Hurley in 1986.

Their love for the Irish countryside, outdoor clothing and customer care is a testament to their determination to bring high quality garments to their customers.

The success of our brand started with 'The Grandfather Shirt' with its unique and traditional styling made from the finest quality pure cotton flannel. Using this same cotton fabric Denis designed our now much loved Irish Flannel Nightwear. So what started off as The Lee valley Shirt Company gradually developed into the company we now run today. Worldwide mail order is a huge part of our business delivering high

quality garments directly to our customers. We are a small company with a big heart and everyone here at Lee valley Ireland strives for the best in customer care and are committed to making your shopping experience enjoyable.

The Irish countryside has always been used as an inspiration for our garments in using the very best of linens, cottons and tweeds. After almost three decades from cutting his first grandfather shirt, Denis and his family remain committed to offering high quality Irish clothing to be treasured forever. It goes to prove that durability, quality and comfort never go out of style.

A PRODUCT OF

LEE VALLEY
IRELAND

It goes to show that true style improves with age. when working in the fields of the Lee Valley, West Cork, the traditional farmer favoured this collarless shirt as he had little use for neck ties. Over the years there have been a few variations of this style with an array of fabrics. What works best for us is fine cottons because here at Lee Valley, we prefer the honest simplicity of our own Grandfather shirts.

The way they were meant to be...
