A watercolor painting of several yellow flowers with dark brown centers and green foliage. The style is soft and atmospheric, with visible brushstrokes and a textured background. The flowers are scattered across the frame, with some in the foreground and others in the background. The green foliage is rendered with various shades of green, from light to dark, and includes some darker, more defined lines for stems and leaves. The overall composition is balanced and visually appealing.

ART

Jean Haines BESTSELLING AUTHOR

Well known for her enthusiasm and passion for art, Jean Haines covers a wide range of subjects in a loose and interpretive style. In the 1990s she studied Chinese Brushwork in Hong Kong, which she now incorporates in her expressive watercolours. Light, colour and sections left to the viewers' imagination play a vital role in her paintings. In 1997 Jean moved to Dubai where she held workshops and courses and participated in many prestigious events at major galleries. Her work soon became collectible and she has since sold many pieces which are now in homes all over the world. Following a short period in both France and Belgium, Jean returned to the UK in 2006, and now regularly exhibits and hosts international watercolour workshops for artists from all over the world. She has won many awards for her outstanding work, most recently the SAA's Professional Artist of the Year, Experimental and Abstract Award.

Terry Harrison BESTSELLING AUTHOR

Terry Harrison grew up in Norfolk, UK. His early art education was basic and he never dreamed that he would one day become an artist. At fifteen, Terry moved to Hampshire and, inspired by his brilliant art teacher, won a place at Farnham Art School at the age of sixteen. After graduating he became a graphic artist but continued to paint in his spare time. In 1984 Terry gave up his job to paint full time and never looked back, teaching and demonstrating his watercolour techniques throughout the world, developing his own range of brushes and paints and writing over 20 bestselling books that have been translated into many languages. Sadly, Terry passed away in 2017 but his legacy lives on. His gift for explaining his methods in an easy and accessible way has encouraged countless people to take up painting, and his beautiful works of art, inspired by the English countryside that he loved, continues to be enjoyed by people all over the world.

The Watercolour Enigma

A complete painting course revealing the secrets and science of watercolour

STEPHEN COATES

Many watercolour artists are disappointed with the results of their endeavours, because their attempts at painting do not always turn out as intended. However, the majority of mistakes are caused by the misuse of paint rather than artistic inability.

Understanding the medium and how to use it will turn potential failure into success, and discovering the truth about how to use watercolours is exciting, liberating and enormously rewarding.

The Watercolour Enigma is based on a practical course by artist Stephen Coates, and is designed to take the student through a process of learning rarely seen in other practical art books. By examining the basic science of watercolour and through a series of practical, straightforward, step-by-step painting exercises, budding painters will leave Stephen's book not only with a mine of watercolour knowledge, but also a selection of stunning paintings they will be proud to have painted.

Fulfill your dream and learn to paint like a true watercolour expert.

Giovanni Civardi BESTSELLING AUTHOR

Giovanni Civardi was born in Milan in 1947. While training to become a sculptor, portrait artist and illustrator at the Free Life-Study School of the Accademia di Brera, he also studied medicine and surgery. For over a decade, he worked as an illustrator, producing commissions for newspapers, magazines and book covers. During frequent trips to France and Denmark, Civardi put on one-man exhibitions of this work and pursued his interest in studying the relationship between medical anatomy and the human form as depicted by the artist. His experience gained from teaching anatomy, life drawing and portraiture in schools and institutions over many years has led to the publication of numerous books in which Civardi's experiences are brought into focus.

Drawing Human Anatomy

GIOVANNI CIVARDI

JUN 2018

From the bestselling, world-renowned life-drawer Giovanni Civardi comes this latest edition of the concise guide to drawing the human form.

To become a successful artist in figure drawing, it is essential to understand the inner workings of the human body; but the complex nature of our anatomy makes the process of learning to draw it often daunting. In *Drawing Human Anatomy*, Giovanni Civardi breaks down the numerous components that make up our bodies into easy, absorbable chunks – from the skin right down to the skeleton. Beginning with easy-to-follow summaries on the makeup of human anatomy, along with advice on how to depict the human figure on paper, the book delves straight into our inner mechanics to get you started on your drawing journey right away. In addition, each muscle and skeletal structure is accompanied by a clear diagram indicating its location on the body, and a drawing of the form in Giovanni's much-loved drawing style.

With dozens of illustrations explaining the relationships between our bones and muscles, and with a wide range of body positions covered – front and back, and rest and motion – this is an exceptional, practical guide to producing anatomically correct drawings for artists of all abilities.

Drawing Birds

ANDREW FORKNER

MAY 2018

This book is an expert guide to producing beautiful lifelike drawings of birds in their natural habitat. Artists of all interests will find a lot to inspire them in this detailed, practical and beautiful guide on drawing birds. The book includes sections on materials, basic techniques and reference gathering, as well as how to draw the key features of birds such as beaks, eyes, claws, wings and feathers. A special section focuses on birds in flight, and this is followed by chapters on the main bird groups including: Waders and water birds, Wildfowl, Birds of prey, Owls, Garden and woodland birds, Seabirds and Game birds.

Each chapter covers the techniques specific to the group as well as numerous examples and a full step-by-step demonstration. The absence of colour means that Andrew uses other aspects such as pattern, shading and shape to give his paintings life and interest.

Written for artists who wish to apply their skills to drawing birds, as well as experienced artists who want to improve their drawing skills, this is an expert guide to producing exquisitely rendered, lifelike drawings of birds in their natural habitats and nothing could be more inspirational than Andrew's accurately observed and truly beautiful drawings.

Crewel Creatures

APR 2018

HAZEL BLOMKAMP

Following the success of *Crewel Intentions* and *Crewel Twists*, which introduced embroiderers to using needle-lace and loom-weaving techniques in their embroideries, comes *Crewel Creatures*, the third title in this series by renowned embroiderer Hazel Blomkamp.

Animals and birds are popular subjects in crewel embroidery, and here Hazel introduces needleworkers to the beautiful, exotic creatures found in the African wild. Following the Jacobean embroidery style for which she is famous, and incorporating the subtle influence of the fractal designs found in zentangle art, Hazel brings beads and other three-dimensional elements into her designs, capturing the stunning and colourful art that is traditionally associated with Africa. Those new to Hazel's work will find a useful guide to the essential crewel stitches, needle-lace and needle-weaving techniques in an easy-to-follow how-to section and stitch gallery inside, and all embroiderers will be impressed by the wealth of design ideas and inspiration this book has to offer.

With every project, step-by-step instructions and gorgeous photographs are included, along with a template of the design. All the projects are stitched and embellished on natural coloured linen, making them not only perfect for framing for display but also wonderfully economical for embroiderers to work on.

For readers looking for something different and new to stitch, and keen to challenge themselves with more complex embroidery techniques, this latest addition to Hazel's Crewel series is an absolute must-have.

Proggy's Rag Rug Menagerie

20 soft and snuggly animals to hook and sew

HAYLEY SMITH

Discover a new and exciting way to put your stash of fabric scraps to good use with this collection of adorable three-dimensional rag-rug projects, which can be adapted for use as children's playthings, pet toys and home accessories.

'Progging' is the name for this style of rag mat-making in north-east England, where the author creates her range of Proggy® kits, supplies and tools, but the method is familiar the world over.

The technique is easy to master and has been a traditional way of creating mats for centuries – simply cut your fabric into strips and push it through the holes in some hessian backing.

Here you will find it given a refreshingly modern twist that moves it beyond the usual two-dimensional rag rug format, with instructions for making 20 fun and funky three-dimensional stuffed animals. With a few simple adaptations to the backing, filling and eye materials, the projects can safely be used as soft toys by children, chew toys by pets, or put to use as door stops and draught excluders around your home.

It adopts a low-tech approach that is understandable and accessible for all and begins with the basic questions you will need to address before you begin.

Each element of the process is carefully considered, from deciding the function of the item to working out proportions and making basic drawings, to choosing the right clay, tools, and making method, and finally glazing and firing, including safety issues and the essential topic of suitability for food.

SUGARCRAFT & CAKE DECORATING

The Kew Book of Sugar Flowers

How to make beautiful floral creations using sugarpaste

CASSIE BROWN

Kew
ROYAL BOTANIC GARDENS

JUNE 2018

In *The Kew Book of Sugar Flowers*, sugarcraft specialist Cassie Brown teaches you how to craft stunning, authentic-looking flowers and foliage using fondant/sugarpaste.

Learn how to create beautiful bouquets and stunning sprays, from the early stages of germinating your ideas – taking inspiration from nature and making moulds from real flowers and leaves – to creating floral cake decorations with an exotic or wild flower theme for a special occasion.

Through clear and concise step-by-step instructions, Cassie explains every facet of crafting sugar flowers, from preparing the fondant/sugarpaste and colouring it with gel paste, to wiring the flowers into an attractive and incredibly realistic bouquet. There is a veritable garden of delights to choose from, from ornate orchids to delicate daisies. The method for crafting each individual flower is demonstrated in stunning detail, beginning with an 'exploded flower' photograph that illustrates each of the individual components, and then working through the techniques and tricks that Cassie herself applies to create her stunning floral displays.

The Kew Book of Sugar Flowers is the perfect guide for the established sugarcrafter looking to develop their skills and take their cake-decorating capabilities to the next level, particularly those with an interest in flowers and plants.

Cassie Brown is the author of *Airbrushing on Cakes*.

The Art of Leather Braiding

A beginner's guide to making coiled & knotted jewellery & accessories

ROY LUO & KELLY TONG

FEB 2018

Leather braiding is an ancient form of art that uses just a few simple knots and cords to create beautiful jewellery and accessories. In this new book, the owners of the chic and established Magnolia Braiding Company have brought leather braiding to the modern day with a collection of stunning projects that rely on just a few simple techniques.

Starting with advice on the leather cords to use and the essential techniques you need to start designing your pieces, you can then delve straight into the brilliant variety of braiding projects – from rings and neckwear to key fobs and wrist straps for watches.

Few specialist tools are required and the leather cord is readily available from craft stores. All of the projects use classic three-string or four-string braid designs, and the addition of decorative knots or store-bought findings give the braids a professional, elegant finish – making these perfect pieces for beginners to make for family and friends.

Hand leather braiding is an easy and rewarding art to pick up and explore, and once you begin you'll be inspired to start creating your own beautiful twisted pieces that will impress you and your loved ones.
